Resolution	1024 × 600 pixels

Parameter	Specification
Operating System	Linux
Communication Protocol	TCP/IP
Network Interface	RJ45 Ethernet
Cabling	CAT5e / CAT6
Power Supply	DC 12–24V or PoE
Operation Current	≤700mA
Housing Material	ABS + Acrylic Front Panel
Installation	Desktop / Wall Mount
Operating Temperature	-10°C to +50°C
Dimensions	271 × 178 × 20 mm
Weight	Approx. 0.88 kg
Colour	Matte Black

Communication

- Full-Duplex Hands-Free Audio
- HD Two-Way Video Communication
 - Resident Calling
 - Outdoor Station Calling
- Guard-to-Resident Communication
- Guard-to-Guard Communication
- Emergency Communication

Monitoring Functions

- Live Monitoring of Outdoor Stations
- Real-Time Video Surveillance
 - Multi-Door Monitoring
 - Resident Status Monitoring
 - Visitor Call Management

- Event & Alarm Monitoring
- Remote Door Status Monitoring

Access Control

- Remote Door Unlock
 - Multi-Door Control
 - Lift Control Integration
- Access Permission Management
 - Emergency Door Release
 - Electronic Lock Control

System Functions

- Visitor Photo Capture
 - Video Recording
 - Call History
 - Event Log
 - Public Announcements
- Security Alarm Management
 - Leave Messages
- Multi-Language Support
 - User Management
 - Time & Date Settings
 - Screen Saver
- Wallpaper Customization
- Volume & Brightness Adjustment

Connectivity

- RJ45 Ethernet
- TCP/IP Communication
 - PoE Support
- ONVIF IP Camera Integration

- CCTV Monitoring
- Indoor Station Integration
- Outdoor Station Integration

Compatible Products

- **Atlas A120** – Audio Outdoor Station
- **Atlas One V320** – Villa Outdoor Station
- **Atlas Pro 520** – Apartment Outdoor Station
